Testing: Top 10 of 250 posts

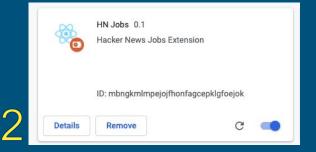

- Review <u>README.md</u> on repo for Testing procedure
- 2. Navigate to Most Recent (December)
 - a. Click https://news.ycombinator.com/item?id=29405056
 - b. Or click on extension button w/out a query term
- Choose query term (e.g. Computer Vision)
- 4. Review current top 10 as they relate to your query term
- 5. Enter query term in extension and click search button
- 6. Review new top 10 answering, "Are they relevant?"

Demo

Uninstall Extension (optional)

- 1. Navigate to chrome://extensions
- 2. Click Remove on Hacker News Jobs Extension
- 3. Delete build directory and build.zip file

Next Steps

- Generalize to other sites
- Boolean Queries
- Suggested Query Terms
- Further Testing
